

# 5 Steps to Risk Assessment

- Video
- SCORM

We are all exposed to a range of hazards and risks during our working day, but if we receive the correct risk assessment training then injuries can be avoided. This training course will provide information on how to identify a risk and a hazard and how to conduct a workplace risk assessment.

## Course Content:

### Introduction

- Step 1
- Step 2
- Step 3
- Step 4
- Step 5

### The course looks in detail at:

What is a risk assessment?

What is a hazard?

How to conduct a risk assessment – a detailed look at the 5 steps involved.

The training course will raise awareness within your organisation that everyone is responsible for their own risk assessment.

### Who is it for?

- Ideal for any worker exposed to risk
- New starters

### Duration:

- 17 minutes

### Available in:

- Video
- SCORM
